

December 06, 2025: On the Treason that is Happening in High Places

I am documenting that ongoing efforts from people occupying 'high places' within government, culture, and business are attempting to force more of an 'influence' into my (oppressed) world than I am able to force into their (overinflated) world.

I am documenting that a group of spies that have access to the highest levels of government, cultural influence, and business are actively working in concert to exert a continuous influence over my life that 'resists' any efforts that I make to shed light on their conspiracy, to stop their intrusion into my life, and to communicate this message to other people in the community.

I am documenting that there is an absolute effort to persist in their decisions to eat away the positive growth of our community in order to feed a 'monster' that thrives on the decaying elements of our communities and cultures.

I am documenting that the spiritual war that is forcing itself over my home is continuously waging a war of turmoil, noise, negativity, and other unwanted stimuli into our home as an effort to 'influence' us through every moment of our day - every day.

The prime purpose of their efforts seems to be exactly that - influence.

I am recording and reporting that the primary tool of evil in our modern world appears to be a disruptive and fear-inducing agitation in order to 'influence' us, to push us, and to cause an counter-productive effect into our lives.

The outcome of these efforts is obviously not positive for most people and does, in fact, result in the downfall and demise of many people.

As I move about our community in San Antonio, Texas, I am made very aware of the devastated 'offspring' that are produced by this evil 'impetus'.

I am alerting anyone that can read this: there is a definite destructive influence being pushed over our lives by the 'powers' that currently control business, politics, and cultural activities.

This is the monument that divides San Pedro Avenue in 'Military City', San Antonio, Texas.

Our own military is hopeless to help us now because they are, in fact, the impetus that spawned this evil network over our lives.

Now, our community so caught in their net of evil that our local leaders felt inclined to produce a monument of an equal 'snip' of our 'vines' and 'family trees' as the type of message that they want to document for their eternity.

Instead of leaving their legacy unchecked, I am writing these recordings to document that 'high treason' is taking place in America and we all must be more alert to the ways in which their influence is suppressing, oppressing, and destroying our own.
